Automotive Service Technician

IS THIS YOU?

Find your work personality type with this free assessment at truity.com:

Holland's Model of Occupational Themes – graphic courtesy of the University of Tennessee.

Realistic | Investigative

Realistic personality types are “doers;” they like doing something, as opposed to talking or thinking about it. They like to solve problems in the real world. They are practical, independent, assertive, competitive, and interested in activities that require motor coordination, skill, and strength. Doers with a secondary personality type of “investigative” have the particular desire to solve problems based on research.

Key strengths that lead to success in this career path

- ✓ Attention to detail
- ✓ Dependability
- ✓ Integrity
- ✓ Persistence
- ✓ Independence
- ✓ Initiative
