## Find yourself at Great Oaks

Programs at Great Oaks are organized in clusters. If you are interested in one program in a cluster, you might want to check out the other programs as well. *For example, you may love horses and are considering Equine Science & Management. There are two other animal-related programs – Animal Science & Management and Veterinary Assisting.*

You'll notice that these clusters are color-coded to make it easier for you to find related programs.

### Nondiscrimination and Equal Opportunity in Educational Programs and Activities

The Great Oaks Career Campuses provide equal educational opportunities for student admission and participation in services, programs, and activities sponsored by the District. It is the policy of the District not to discriminate, in violation of federal or state law, on the basis of race, color, national origin, ancestry, religion, sex, age, or disability in admission to, access to, or receiving benefits from any service, program, or activity sponsored by the District.

Section 504 is a federal law, which prohibits discrimination against persons with disabilities. The law provides:

No otherwise qualified individual with a disability... shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance... 29 USC § 794

One of the principal purposes of Section 504 is to ensure that students with disabilities are not denied access to educational facilities, programs, and opportunities on the basis of their disability. The District expects its employees to be knowledgeable about its Section 504 procedures. If you have Section 504 questions concerning either current or prospective students, please contact the Director of Student Services. If you are a student with a disability and need a modification to any of these procedures because of your disability, please contact our Director of Student Services.

## Consider your options

Maybe you know exactly what you want to do in life, or maybe you don't know about what options you have. Either way, we can help.

If you already know what field you're interested in, take a look at page 4. Similar programs are color-coded, so you can look at the variety of options in your field.

Not sure? Check out **Is this you?** on each program page to find ones that match your talents and interests.

For more information, including videos and future career options, use the web address displayed on each page or [greatoaks.com/career-options](http://greatoaks.com/career-options).

- ★ You want to earn college credit in high school.

# Questions and answers about Great Oaks

## What is Great Oaks?

Great Oaks is a career-technical high school in southwest Ohio, serving 36 affiliated school districts. As part of the Great Oaks district, four campuses offer high school programs: Diamond Oaks on the west side of Cincinnati, Laurel Oaks in Wilmington, Live Oaks in Milford, and Scarlet Oaks in Sharonville. At these campuses, you may choose from more than 30 programs. You complete them as you prepare for continuing education, the workplace, and/or the military.

## How much does it cost to attend Great Oaks?

There is no tuition to attend. Some programs require uniforms; assistance is available for those who may need it.

## Do I have to attend the campus nearest to my high school?

No. Your current school is assigned to the nearest campus, but if an opening exists in your chosen program at a different

campus, or if you're interested in a program that is only offered at another campus, you may apply there.

## Can I attend half-day?

Check with your school counselor to see if this is an option for you.

plan for graduation based on district and state requirements.

## Does Great Oaks provide programs and services for students with special needs?

Programs are open to students with special needs.

## Great Oaks is right for you.

- ★ You like to make new friends.
- ★ You want to learn with people who have the same career interests.
- ★ You want a chance to meet others in academic classes and other activities.

## How will I spend my day?

You will spend 2.5 hours in your career program. The remainder of the day is spent completing academic coursework. The required courses are determined by your career program and your

## How will I get the academic credits needed to graduate?

At Great Oaks, you can earn two or more credits in each subject area of math, English, science and social studies during your junior and senior years.

### What if I want to do activities at my high school?

We encourage you to be involved at your high school – and – Great Oaks. Many students participate in cheerleading, sports, drama, music, clubs, and other activities at their high schools.

### Can I earn an honors diploma?

Yes. The Honors Diploma and Career-Technical Honors Diploma are available for high-achieving students who qualify. Talk to a Great Oaks counselor or go to [hs.greatoaks.com/honors-diploma](https://hs.greatoaks.com/honors-diploma) to learn more.

### Who will issue my diploma when I graduate?

Upon graduation, your diploma will be issued by your high school at your high school graduation. Great Oaks does not issue the diploma.

However, we do have a special end of year ceremony for each campus where you will receive a career passport containing all of the other things that you earned while at Great Oaks such as career industry certifications, credentials, college credits, and a resume highlighting your career experience and accomplishments.

# Take part in groups here or at your home school

At Great Oaks you can be a part of many organizations, take advantage of great leadership opportunities, and engage in other activities, including activities at your home school. You can join the Junior ROTC (where available) and even be inducted into the National Technical Honor Society.

In fact, every Great Oaks student is automatically a member of a CTSO (career-technical student organization). These groups offer direct connections to your career, plus opportunities for leadership, competitions, awards – and fun!

## Great Oaks is **right for you.**

- ★ You want to stay connected with old friends and make new friends.
- ★ You plan to stay active in sports, clubs and other activities at your affiliate school.

## Organizations to join

### **Business Professionals of America**

For business and information technology career programs.

### **FCCLA**

*(Family, Career & Community Leaders of America)*

For early childhood education career programs.

### **FFA**

*(National FFA Association)*

For agricultural and animal science career programs.

### **HOSA – Future Health Professionals**

*(Health Occupations Students of America)*

For health science, healthcare and veterinary career programs.

### **SkillsUSA**

For trade, industry and food programs.

### **NTHS**

*(National Technical Honor Society)*

NTHS is the career-technical education recognition of outstanding student achievement. To be inducted, you must have an outstanding attendance record, a high grade point average, and recommendations from instructors and administrators.

# Get a jump start on your future

## Earn industry credentials

Industry credentials are proof that you have the skills needed to begin a career – and in many Great Oaks programs, you can earn certifications or licenses that other people don’t get until years after high school. That gives you a head start!

Industry credentials are recognized by employers and professionals in the field.

The credentials are listed on each career program page.

## Earn credits for college

You can earn college credit for Ohio public colleges and universities by completing a designated Great Oaks career program! Through the Ohio Transfer to Degree Guarantee program, students who finish an approved program and earn

industry certification are eligible for college credit, often referred to as Career-Technical Assurance Guide (CTAG) credit.

The statewide credit transfer is available at any Ohio public college or university that has a program in the career field you studied at Great Oaks.

For details, visit [transfercredit.ohio.gov](http://transfercredit.ohio.gov).

## Examples of certifications or licenses you could earn

- OSHA 10-hour card
- FAA General/Airframe license
- Ohio State Board of Cosmetology License
- STNA/PCA
- Microsoft Technology Associate Developer
- American Welding Society Certification
- ...and more!

See “Career credentials you can earn” on each career program page for details about the career field you are interested in!

## Great Oaks is right for you.

- ★ You like to learn from professionals in your career field.
- ★ You are ready for real-world situations.
- ★ You want to make contacts with potential employers.

## Making vital career connections early

Great Oaks career programs are connected to local businesses and industry. Every program at every campus has a Business and Industry Advisory Council, a group of leaders in the field who help choose equipment, review the curriculum, and talk with students about career opportunities. More than 1,200 professionals make up the Business and Industry Advisory Councils at Great Oaks, so students can make connections even before they graduate.

# Step into real world with work-based learning

The first job is often the toughest to get, especially when you don't have experience. At Great Oaks, you have the chance to get real world experience while still in high school.

Seniors who qualify can begin working in their career field while still in school. Each year, hundreds of seniors attend Great Oaks for academic classes and then spend the rest of their day at a job site or employment. They're learning, getting high school credit, getting valuable experience, and often earning a paycheck.

In some fields, students can begin apprenticeship programs in high school that allow them to complete their apprenticeships after graduation faster.

Many employers offer full-time jobs to student interns after they graduate, as well.

*On Signing Day, hundreds of seniors commit to their new careers by signing on with area employers.*

## Career Services

Be ready for real-life success. Great Oaks Career Services has a job posting database with more than 500 area businesses registered!

# Students gain hands-on training in career labs

Half of each school day is spent in your career program and half is spent in academic classes (with time for lunch, of course).

Most students take four academic classes (mathematics, English, science, and social studies). Some students may substitute JROTC (where available) for one academic class. You may also qualify for College Credit Plus classes in which you can earn college credit while completing high school requirements.

In your lab, much of your time will be spent in hands-on work. If you're a Digital Arts and Design student, you'll be creating and designing. Interested in Culinary Arts? You'll be in the kitchen.

The work you do in your career lab will be under the hood of a car, in a hospital room setting, in the cockpit of a Cessna, at a programmable manufacturing lathe, or whatever setting you've chosen as a possible career field.

You can also be involved in student leadership activities on campus and in career-technical student organizations (CTSOs).

When your day at Great Oaks is finished, you can also stay involved in activities at your home high school – sports, theater, clubs, and more.

## Laptop program

All Great Oaks high school students are eligible to receive a laptop computer to use while enrolled at Diamond Oaks, Laurel Oaks, Live Oaks, or Scarlet Oaks! That means each student will have a computer to use for class work, lab work, and homework – access to technology 24 hours a day, seven days a week. Technical support is available at each campus during school hours.

## Great Oaks is right for you.

- ★ Hands-on learning is important for you.
- ★ You want to practice your new skills.

## College, work, military – possibilities abound

You can go anywhere you want and get there faster! With Great Oaks, you get a great education and can begin a career or go on to college!

- Have more choices...
- Get a head start in college...
- Save money...
- Start a great career!

Many Great Oaks graduates go to college immediately after graduation. Great Oaks also has numerous certification and licensure opportunities available in a variety of programs. Learn more at [hs.greatoaks.com](http://hs.greatoaks.com).

- ★ You plan on moving on to a career, college or both.

## FAQ about applying for Great Oaks

### How do I apply?

- Complete an online application with your parent at either *application.greatoaks.com* or *hs.greatoaks.com* (if you do not have internet access, contact your high school counselor).
- Completed applications generate a confirmation e-mail sent to:
  - You
  - Your parent or guardian
  - Your high school counselor
  - A Great Oaks career specialist
- After your first semester grades are finalized, your high school counselor will complete their portion of your application.
- **All completed applications submitted by Feb. 7 will be reviewed for admission beginning Feb. 8.**
- For priority admission consideration, make sure that your application has been processed completely by midnight Feb. 8. Acceptance letters will go out in early March.
- Applications received after Feb. 8 will be considered for programs where space is available. *Remember that many programs fill up fast, so don't delay!*
- Applications for open spots are accepted through the second week of the school year or until filled, whichever comes first.

**Priority application period: Nov. 15 to Feb. 7**  
Applications after Feb. 8 will be considered as space is available.

### How will I know if I am going to be accepted?

- All students must be on track with core credits toward graduation.
- As soon as your application is processed, you will receive notification of your admission status.
- Once accepted to your program, your career-technical instructor will contact you prior to the start of school to answer any specific questions.

### More questions?

If you need other information or would like to visit the school, call a career specialist at one of the campuses (below, at left). They will be happy to answer your questions and set up a visit. You also may visit *hs.greatoaks.com* for more information about Great Oaks programs and schools. Your current school guidance counselors also know about our programs and may be able to answer many of your questions.

# Animal Science & Management

Available at: Laurel, Live

Animal Science & Management provides you with the foundation you need to work with animals. You will learn about nutrition, disease prevention and treatment, and how to care for and handle a wide variety of animals. You'll also learn essential business management and customer service skills. This program can prepare you to work in a veterinary hospital, pet store, grooming salon, lab research facility, kennel, or animal training facility.

Is this YOU?

- I love animals
- I have good physical stamina
- I like to work flexible hours
- I am self-motivated.

# Automotive Refinishing & Collision Repair

Available at: Diamond, Laurel, Live, Scarlet

Steady hands, mechanical skill, and an artistic eye are all important in the field of automotive collision technology. Here you'll learn to repair, replace and refinish auto bodies. You'll replace glass, paint, weld metal, do final detailing, remove and install panels, and fix dents and plastic. You'll even learn to prepare estimates. With that knowledge, you can earn the certification to be a collision technician and do auto body and frame repair, painting, and finishing. Learn more about the field at [I-Car.com](http://I-Car.com).

# Automotive Service Technician

Available at: Diamond, Laurel, Live, Scarlet

In the hands of a skilled technician, a smooth-running engine is a beautiful sound. Use the latest equipment and tools to diagnose and repair engines, brakes, and electrical systems. You'll also perform vehicle maintenance. When you learn automotive technology from air conditioners to exhaust systems, you can earn ASE certifications. These certifications provide the foundation you need to begin a career as an automotive technician in a dealership, tire shop, or independent service center.

# Construction Framing & Finishing Technologies

Available at: Diamond, Scarlet

Every home, every business, and every structure is the product of skilled construction professionals. If you enjoy working with your hands and seeing the results of your work, keep reading. You'll learn carpentry skills and remodeling techniques. You'll have the chance to master a wide range of hand tools and power tools, read blueprints and building plans, and do concrete work and framing. From foundations to roofing, you'll learn to create buildings that last for many years.

## Is this YOU?

- I work well with my hands
- I have a good eye
- I am a builder
- I have a sense of balance

# Dental Assisting

Available at: Laurel, Scarlet

Dental assistants support dentists. They may prepare patients for treatment, sterilize instruments, assist the dentist during procedures, take x-rays, make impressions, and keep dental patient records. Some dental assistants may work in labs. In this program, you'll be able to take the Ohio Certified Dental Assistant exam and begin working right away – or have the skills you need to continue on in school to become a dental hygienist; some Great Oaks graduates plan to become dentists.

# Firefighting/Emergency Medical Service

Available at: Scarlet

In the Firefighting/Emergency Medical Service program, you will train to become a professional fire fighter and Emergency Medical Technician (EMT). Through your training, you will learn such technical skills as rescue, fire prevention and suppression, and the proper use and maintenance of tools and equipment. As a certified fire fighter/EMT, you can begin working in the industry immediately after high school. You will also have the foundation to continue your education in a fire science or paramedic program. Credits can be applied to an associate degree in fire service or an emergency services degree.

## Is this YOU?

# Health Academy

Available at: Scarlet

The Health Academy is a unique opportunity for students to explore various health career fields and continue in a health care pathway that aligns with their short- and long-term goals. You will spend the first semester learning fundamental skills in effective, safe patient care and building your medical vocabulary. You also will prepare to certify as a State Tested Nurse Aide (STNA). STNAs work in a settings like patient homes, rehabilitation centers, hospitals, clinics, adult daycare centers, and assisted living facilities.

At the semester break, you will choose one of two pathways. In the Health Technology program (see page 50), you prepare for certification in high-demand areas like patient care technician, medical assistant, phlebotomist, or EKG technician.

If eligible for Secondary Practical Nursing, you will learn fundamentals in patient care, data collection, human development, pharmacology, and medication administration. You will apply these skills in a real-world clinical setting. The Secondary Practical Nursing pathway prepares you to take the National Council Licensure Exam (NCLEX-PN). Passing the exam results in certification as a licensed practical nurse (LPN).

## Is this YOU?

# Health Technology

Available at: Diamond, Laurel, Live and Scarlet through Health Academy

**H**ealth Technology provides a broad-based knowledge of the health care field and various health care careers. You will have the opportunity to learn many technical skills, such as taking vital signs, medical terminology, body mechanics, and infection control. You can become a State Tested Nurse Aide and can earn a national certification for patient care technician. You could also earn a national certification in medical assisting or phlebotomy. These will allow you to start working in a medical facility right away. You may also choose to continue your education to pursue another career in the medical field, such as nursing, radiology, physical therapy, or pharmacology.

## Is this YOU?

# Heating, Ventilating & Air Conditioning

Available at: Diamond, Laurel, Live, Scarlet

Everyone enjoys the comfort that comes from heat in the winter and air conditioning in the summer. Having the ability to design, install, test, and repair heating and air conditioning systems is essential – and it’s a profession that’s in demand. You’ll learn to work with sheet metal, motors, and wiring. You will build ductwork, learn to solder and braze copper, troubleshoot HVAC systems, and gain the skills to start a career in this lucrative field.

## Is this YOU?

# Web Applications & Game Development

Available at: Diamond, Scarlet

Technology growth is outpacing all other industries. IT professionals need to be well-rounded, flexible, problem solvers. The Web Applications & Game Development program provides students with a framework for life-long learning in this demanding field. Students are exposed to a broad range of hands-on software engineering opportunities leading to industry certifications for immediate employment or college preparedness. Students can get industry experience through placement during their senior year.

## Is this YOU?

# Welding & Fabrication

Available at: Diamond, Laurel, Live, Scarlet

Precision and excellent hand/eye coordination are important for the welding program. You'll learn various types of welding and cutting operations, as well as fabrication, quality control, and weld testing. You will even learn to read and interpret blueprints. Through this program you will have the opportunity to become a certified welder. Other career pathways might include welding inspector, metal fabricator, or sales.

# Project SEARCH

Available to students in all 36 public districts served by Great Oaks

Project SEARCH is a one-year transition to work program that prepares students with disabilities for employment through real-life work experience and employability training. You will learn about independent-living skills needed for a successful transition to adult life. The immersive workplace training program combines classroom instruction, career exploration, and hands-on learning through actual business partner worksite rotations. During the school year, you will rotate through three non-paid internship sites to learn work skills needed for the world of work. When you complete the program, you may seek employment in career paths that match your skills and interests.

FIFTH THIRD BANK

### Is this YOU?

- I want to develop my employability skills

# Focus on Academics

At Great Oaks, students receive a quality education. We teach the skills that students need for success in careers and college, and that includes high levels of communication, math, and science abilities.

Classes are available for a wide range of student needs. Students come to Great Oaks with credits from different high schools and with individual goals.

Each student may have specific needs based on the credits already earned, the requirements of the chosen career-technical program, the requirements for graduation from high school, and the requirements for admission into college or other post-secondary programs.

## College Credit Plus

You can earn college credit while you're still in high school through College Credit Plus classes available on campus and at area colleges. Talk to your high school counselor or a Great Oaks career specialist for details.

*Classes may be added or removed based on Ohio graduation requirements and students' needs.*

# JROTC

*Available at: Diamond, Live, Scarlet*

The Junior Reserve Officer Training Corps (JROTC) curriculum includes cultural awareness as well as global history and such other subjects as financial management. You'll gain a sense of accomplishment and self-esteem while learning personal responsibility, teamwork, and self-discipline. You'll also better understand the personal rights, responsibilities, and privileges of American citizens.

Leadership opportunities abound in the program, including the chance to attend one week of military/leadership training during the summer.

Great Oaks JROTC Color Guard teams are a familiar and well-respected sight throughout the community. JROTC cadets have excelled

in regional and national competition in a variety of subjects and skills.

Cadets are involved in a wide range of school activities including drill teams, air rifle teams, orienteering, athletics, parades and community events.

Great Oaks JROTC cadets take field trips to such locations as Gettysburg, Washington, D.C., and other areas to better understand their place in American history.

There is no obligation for students who enroll in the JROTC program to serve in the U.S. Armed Forces. However, students completing two or more years of JROTC may be eligible for advanced rank if they enlist upon graduation.

JROTC students earn one elective credit per year.

# Info about Great Oaks

If you're reading this catalog, that likely means your high schooler has the opportunity to attend Great Oaks.

It's a chance for them to focus on a specific career field while they're still in high school, to earn college credit *and* industry certifications, and to experience a career field, to decide whether they want to continue it in the future (instead of deciding after a year or more of college).

It's a chance to get a head start – or a fresh start.

It's a chance to start an in-demand career without debt.

These pages answer the most common questions that parents have. If you have other questions, or want more information, we hope you'll call or e-mail us.

## **My student wants to go to college. Is that possible with a Great Oaks education?**

Yes! Many Great Oaks graduates go directly to college, often with college credit they earned during high school. For instance, College Credit Plus courses are taught by college-certified instructors on Great Oaks campuses.

Students who successfully complete

specified technical courses are eligible to have technical credits transferred to public colleges and universities in Ohio. More information about this opportunity can be found at [bit.ly/OhioHigherEd](http://bit.ly/OhioHigherEd).

Many Great Oaks students have found that, with the certificates they have earned, employers will pay for college or continuing education.

## **My student isn't sure about his future career. Why should he go to Great Oaks?**

Many students are interested in particular career fields, but aren't sure if that's what they want to do with their lives. Great Oaks gives students the chance to explore a career before they go to college – a much less expensive option than deciding to change programs after a

## **How much does it cost for my student to attend Great Oaks?**

Great Oaks is a public school district offering a free public education. Some programs require that students purchase uniforms. Financial assistance for uniforms may be available for students in need.

year or more of college. Of course, many students also discover that the Great Oaks career program they've chosen is right for them. Many graduates can immediately begin good careers or continue in apprenticeship programs.

**Can my student still participate in activities at his/her home high school?**

Yes. Students are encouraged to continue to participate in sports and other extra-curricular activities at their current schools. They can also participate in leadership activities at Great Oaks through career-technical student organizations, Junior ROTC, and National Technical Honor Society.

**How does Great Oaks help a student successfully connect with job opportunities?**

Students who meet requirements are eligible for work-based learning opportunities in their career program. These

experiences often lead to full-time employment after graduation. After graduation, students may also contact Great Oaks Career Services for employment leads.

**Is transportation provided to the campuses?**

Affiliate schools typically provide transportation to their nearest Great Oaks campus. Students may also drive to school, and parking is free. Ask your student's current school counselor any questions you may have about transportation.

**Does Great Oaks provide programs and services for students with special needs?**

Yes, Great Oaks programs are open to students with special needs. Intervention Specialists support and coordinate services between the student, parent, home school, other agencies, and related personnel, and Great Oaks staff as outlined in the Individualized Education Plan (IEP). The Great Oaks staff focuses on developing employability skills, content knowledge, and student independence to ensure students are successful and prepared for the industry's credentials and requirements.

**How successful are Great Oaks graduates?**

The Ohio Department of Education has established Performance Measures for Career and Technical Planning Districts, such as Great Oaks, that provide career and technical education. The measures help the districts to continually improve their programs and services.

**Performance Measures for Class of 2021**  
*(Most recent year available)*

**91.5%**

**of the class of 2021 are working and/or pursuing further education**

*(Positive Post Program Placement)*

**40.7%**

**of the class of 2021 earned credits toward college**

**16.0%**

**of the class of 2021 earned an honors diploma**

**Great Oaks is right for students who:**

- ★ are interested in a career field and want to explore it *now*.
- ★ enjoy hands-on learning from experienced professionals.
- ★ want to graduate with options, ready for a career *and* college.

# Satellite programs

Great Oaks also offers a variety of programs in local schools in collaboration with our affiliate school districts.

Many programs offer the chance for students to compete nationally and internationally through Career and Technical Student Organizations, including DECA, FFA, SkillsUSA, and more, and also gain practical experience through internships at area businesses. Students in Great Oaks satellite programs have earned national recognition in marketing, healthcare, engineering, business, and teaching, and finish high school ready for careers and college.

These programs also benefit affiliate school districts by expanding the educational offerings available to their students.
